To CEO The company Agroklaster LLC
Perepelkin Oleg Aleksandrovich

Dear Oleg Alexandrovich

LR Group has 30 years of success in the field of agriculture, telecommunications, medicine and aviation technologies. Since its founding the LR Group produced, developed, managed and supported more than 400 medium and large-scale projects on developing markets around the world, and today Company has more than 3000 employees in 70 countries worldwide. Proceeding our negotiations, we inform you that the company LR-Group ready to become a managing company-integrator, providing work of the technical customer, general designer and general contractor, on implementation of the "turn-key" agroproject for the construction and start-up of a hothouse complex LLC "Agroklaster" with a total area of 30 hectares in the Moscow region.

We also confirm that we are ready to agree on the conditions to provide a guarantee of the execution of the project until its launch and output on production indicators. When signing a contract with us for project management after the launch, we ready to take the responsibility on the production volumes. For determining specific financial and time indicators of the project, it is necessary to carry out preliminary design and development of technological part. LR-Group is actively introducing innovative technologies in rural areas and is ready to take part in the development of SmartAgro platform company "Agroklaster" as an expert by providing a project details and training support for localization of project in any region.

Yours faithfully,
Mark Veltman,
Vice President for CIS countries
