

March 5, 2018, Israel
To the Director General of LLC "Agroklaster"
Perepelkin Oleg Aleksandrovich

Dear Mr. Perepelkin,

Netafim Greenhouse, is one of the world leaders in the field of greenhouse equipment, so we have a solid worldwide experience in supplying modern highly specialized greenhouse systems, industrial greenhouses and greenhouse equipment. Netafim is the world leader in the production of irrigation systems and one of the world's largest companies for the production of irrigation equipment, which uses a small quantities of water supply system. Official sales representatives are located in more than 60 countries around the World.

We confirm that Netafim is ready to provide technological support to the work of the general designer and general contractor, control the quality of EPCM's performance of the contract, construction, provide the service for equipment installation, support the launch and the output of the planned yields in the framework of the agreed contracts, for the project of the greenhouse complex Agroklaster LLC a useful area of 30 hectares. We propose to continue a cooperation to determine specific indicators of the project, paying special attention to the innovative technological part.

Being a modern innovative company, Netafim is interested in developing the SmartAgro platform of Agroklaster and ready to review the terms of cooperation and expert support.

Yours faithfully,
Viktor Kotser
